

## **DATA CENTER CABLING SYSTEMS MARKET**

***The data center market offers one of the largest structured cabling systems (SCS) growth opportunities. Suppliers to this market need this recent update, containing forecasts to 2015, and including the latest products recently introduced for this market.***

***The study provides answers to the following:***

- How large is the data center SCS market and what is its growth over the next 5 years?
- Which is the larger media type: Copper or Fiber cabling for data centers, now and in 5 years?
- Which category of UTP cables will be the largest market in the future?
- How will the parallel fibers for future 40/1000 Gbps be deployed in the data centers?
- What are the recent innovative fiber cabling products announced for the market & how large will they be in 5 years?
- What will be the most significant technology developments that will impact cabling within data centers?

***Five-year product forecasts include:***

- UTP, STP & coax copper cables
- Fiber cables
- UTP patch panels, outlets and connectors
- Fiber plug n' play cables
- Fiber plug n' play products — fiber cassettes and fiber modules

***The study provides details on:***

- Cabling architectures by size or sites
- Server and site data and forecasts
- Role of MPO fiber connectors
- Latest TIA standards activity on data center cabling

*Over.....*

## TABLE OF CONTENTS

### Chapter 1

- Introduction
- Data Center Cabling Update
- Study Objectives
- Methodology/Sources
- General Notes

### Chapter 2

- Executive Summary
- Data Center Evolution
- Data Center System Architecture
- Data Center Total Structured Cabling Systems Forecast
- Fiber versus Copper Cabling Trends

### Chapter 3

- Data Centers in Enterprises Perspective
- Data Center Overview
- Historical Perspective
- Data Center Physical Components
- Data Center Market Drivers
- TIA 942 Data Center Cabling Standards
- TIA 942 –A Revised Data Center Standard
- Uptime Institute New Standard
- Power/Cooling Considerations

### Chapter 4

- Cabling Architectures
- Standard Cabling Architecture
- Small Data Centers
- Medium Data Centers
- Large Data Centers
- Fiber Plug N' Play Interconnects

### Chapter 5

- Copper Cabling Products
- Copper Cabling Products Overview
- Shielded Twisted Pair Copper Cabling
- New Copper Cabling Product Designs

### Chapter 6

- Fiber Cabling Products
- OM Family of Fiber Cables
- High Density Fiber Systems
- Plug N' Play Fiber Products
- 10 Gbps Ethernet Products
- 40/100 Gbps Ethernet Products
- New Fiber Products

### Chapter 7

- Cabling Product Trends
- Reduced Diameter Cat 6a UTP Cables
- New MRJ 21 UTP Jack
- Active Optical Cables

### Chapter 8

- Technology Trends/Developments
- Fiber Channel vs. Ethernet
- Fiber Channel over Ethernet (FCoE)
- Virtualization

### Chapter 9

- Data Center Forecast
- Server Forecast
- Server Forecast by Site Size
- Data Center Sites Forecast

### Chapter 10

- Data Center Total SCS Forecast
- Total Data Center Forecast & Growths
- Total SCS by Fiber versus Copper Trends
- Total SCS Market by Major Product Types
- Data Center SCS as a Percentage of the Total SCS Market
- Data Center Copper Cabling as a Percentage of the Total Copper SCS Market
- Data Center Fiber Cabling as a Percentage of the Total Fiber SCS Market

### Chapter 11

- Cable Forecasts
- Total Cable Market Forecast
- Fiber – Copper Cable Segment Forecast
- Copper Cable by UTP – STP – Coax Forecast
- UTP Cable by Categories Forecast
- Fiber Cable Forecast by Cable Types

### Chapter 12

- Apparatus Forecast
- Total Apparatus Forecast
- Fiber – Copper Apparatus Forecast
- Copper Apparatus Forecast by Product Types
- Fiber Apparatus Forecast by Product Types

## LIST OF FIGURES

### Chapter 2

- Figure 2.1: Data Center Cabling Architectures
- Figure 2.2: Total Data Center SCS Market Forecast
- Figure 2.3: Data Center Fiber vs. Copper SCS Trends

### Chapter 3

- Figure 3.1: Data Center – LAN Comparison
- Figure 3.2: Data Center Physical Layout
- Figure 3.3: IP Traffic Growth
- Figure 3.4: Data Center Standard Architecture

### Chapter 4

- Figure 4.1: Data Center Cabling Architecture
- Figure 4.2: Small Data Center Site Cabling Architecture
- Figure 4.3: Medium Data Center Site Cabling Architecture
- Figure 4.4: Large Data Center Site Cabling Architecture
- Figure 4.5: Large Data Center Cross Connects

### Chapter 6

- Figure 6.1: Multimode Fiber Types – Performance Grades
- Figure 6.2: Reach & Bandwidth by MM Fiber Types
- Figure 6.3: Multimode Fiber Link Distance Support
- Figure 6.4: 10 Gbps Ethernet Standards

### Chapter 9

- Figure 9.1: Data Center Server Forecast
- Figure 9.2: New vs. Existing Server Cabling Trends
- Figure 9.3: Number of Servers by Size
- Figure 9.4: Data Center Sites Forecast
- Figure 9.5: Number of Sites by Size

### Chapter 10

- Figure 10.1: Total Data Center SCS Market Forecast
- Figure 10.2: Total Data Center SCS Market Year-to-Year Growths
- Figure 10.3: Fiber vs. Copper SCS Trends
- Figure 10.4: Total Data Center SCS by Product Types Forecast
- Figure 10.5: Data Center SCS % Total SCS Market
- Figure 10.6: Data Center Copper SCS % Total Copper SCS Market
- Figure 10.7: Data Center Fiber SCS % Total Fiber SCS Market

### Chapter 11

- Figure 11.1: Total Data Center Cable Market Forecast
- Figure 11.2: Total Cable Market Year-to-Year Growths
- Figure 11.3: Fiber – Copper Cable Market Forecast
- Figure 11.4: Copper Cable by Types Volume Forecast
- Figure 11.5: Copper Cable by Types Market Forecast
- Figure 11.6: UTP Cable Volume Forecast by Category
- Figure 11.7: UTP Cable Volume by Category Trends
- Figure 11.8: UTP Cable Forecast by Category
- Figure 11.9: Fiber Cable Volume Forecast by Cable Types
- Figure 11.10: Fiber Cable Forecast by Cable Types

### Chapter 12

- Figure 12.1: Total Apparatus Forecast
- Figure 12.2: Total Apparatus Year-to-Year Growths
- Figure 12.3: Fiber – Copper Apparatus Forecast
- Figure 12.4: Fiber – Copper Apparatus Trends
- Figure 12.5: Copper Apparatus Forecast by Product Types
